WARNING: READ BEFORE USING YOUR
SEGA VIDEO GAME SYSTEM.
A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions – IMMEDIATELY discontinue use and consult your physician before resuming play.

HANDLING YOUR SATURN DISC
- The Sega Saturn disc is intended for use exclusively with the Sega Saturn™ system.
- Do not bend it, crush it, or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional recess during play, to rest yourself and the Sega Saturn compact disc.
- Keep your Sega Saturn compact disc clean. Always hold by the edges and keep it in its case when not in use. Clean with a lint-free, soft dry cloth—wiping in straight lines from center to edge. Never use solvents or abrasive cleaners.

WARNINGS TO OWNERS OF PROJECTION TELEVISIONS: STILL PICTURES OR IMAGES MAY CAUSE PERMANENT PICTURE-TUBE DAMAGE OR MARK THE PHOSPHOR OF THE CRT. AVOID REPEATED OR EXTENDED USE OF VIDEO GAMES ON LARGE-SCREEN PROJECTION TELEVISIONS.

This product has been rated by the Entertainment Software Rating board. For information about the ESRB rating, or to comment about the appropriateness of the rating, please contact the ESRB at 1-800-771-3772.
Once in a thousand years, the ancient texts say, a god takes physical form and appears in the galaxy. According to the time keepers of the planet Denius in the Milky Way system, the 1000th year has arrived. The god that the galaxy has been waiting to greet has arrived. But he is not a being of light. He is the god of Evil and controls the powers of darkness.

He calls himself "Felden Cryce". He is endless, all encompassing, all powerful, and with his power, he desires to rule the Galaxy. No one stands before the dark power of this super being. The races of the galaxy can only suffer in silence and wait for a savior to come...
STARTING UP

Place the Galaxy Fight CD in the well of the CD tray, face up, and turn on the Sega Saturn. After the introductory screens, the title screen appears.

When the Title screen appears, press Start to see the game modes. Press the D-Pad to cycle through the mode choices and press start to select a mode.

GAME START
Select this option to enter the 1-Player game mode. Pick a fighter and challenge the CPU in a series of battles for the chance to defeat Felden Cryce and restore peace to the Galaxy!

VS MODE
This option is a 2-Player, one-match battle. Players pick their fighters and test each other's battle skills. The winner returns to the Player Select screen. Press Buttons A, B and C and Start simultaneously to return to the Title Screen.

SPECIAL COMMAND MODE
Set Button X or Button Y for any of a fighter’s Special Attacks.

OPTION
Change various game settings in this mode.

Note: To fight in 2-Player battles, a second Control Pad is needed. Make sure to insert Control Pad 2 in Control Port 2 before turning on your Sega Saturn unit.

Power: Indicates how much damage the fighter has received in the current battle. As the fighter is hit, the Power level decreases. When the bar reaches zero, the fighter loses the round.

Score: Shows the current score for the battle. Each successful attack increases the fighter's score. When the fighter wins the round, any remaining power and time remaining is converted into additional score points.

Time: Shows the amount of time remaining in the round. If the time runs out before one fighter is defeated, the amount of power each fighter has remaining is used to determine the winner of the round.
Tournament Wins Mark: One mark is given for each round that fighter has won. If a fighter wins two rounds in a row that fighter wins the Tournament, and goes on to face the next opponent. If there is no winner after three rounds, a final round is played to determine the winner.

The Game Modes

Game Start (One Player Only)
Pick a fighter from the Player Select screen, and start the battle against the CPU. Use the D-Pad to cycle through the fighters displayed on the screen, and press Start to select a fighter.

Mid-Match Challenge
This allows a second player to enter the battle mid-match. Press Start on Control Pad 2, select your fighter and get started! The winner of the match goes on to face the CPU in the remaining battles.

To Continue
If a player loses a match, the Continue screen appears, and a timer begins a countdown. Press Start before the timer reaches zero to continue the battle.

Vs Mode (Two Players)
Player One and Player Two select fighters from the Player Select screen, and the match begins. The winner returns to the Player Select screen. Pressing Buttons A, B and C and Start returns you to the Title Screen.

Special Command Mode
Set Button X or Button Y to perform Special Attacks. From the Command Select
screen, cycle through the possibilities and press either Button X or Button Y to set it
to perform that special Attack. Remember that Button X or Y special attacks
cannot be performed while pressing the D-Pad.

**OPTION**

**Level Select**
Choose from Very Easy, Easy, Normal, Hard and Very Hard. This option is
disabled in the 2 Player mode.

**LR Button Dash**
Set the controls so that Dashes and Backsteps can be performed by pressing
Button L or R only once.

**Music Test**
Listen to the BGM tracks used in the game.

**Sound Mode**
Select to hear sound in Monaural or Stereo sound.

**Exit**
Select this to return to the Title screen.

*Note: The commands shown are for a character attacking from the right side of
the screen.*

---

**TAKE CONTROL!**

**Light Attack**
The attack does less damage, but is fast and easily repeated.

**Strong Attack**
This type of attack is powerful, but takes time to complete.

The Normal Attack is between Light and Strong in terms of speed and damage.

**Guard**
Press the D-Pad back. (Guarding is impossible mid-jump.)

Guards are used to protect against attacking opponents. Bear in mind that the
upper guard does not protect against kick attacks, and that the lower guard does
not protect against jumping attacks. Also note that if you guard against a special
attack, you will still incur a certain amount of damage.
Dash
Press the D-Pad twice in the direction of the intended dash. If no attack is performed during the dash, the fighter only runs into the opponent, and no attack is incurred. Pressing the D-Pad twice in the opposite direction of the attack stops the fighter suddenly. If not pressed in time, the fighter bumps into the opponent, and if the fighter is performing an attack mid-dash, the attack is performed automatically.
Note: Special attacks performed mid-dash have 1.5 times the normal strength, and penetrate the opponent’s guard.

Back Step
Press the D-Pad twice in the direction of the intended backstep. This places some distance between you and the opponent, giving you some “breathing room.”

Flying Flurries/Auto Follow
After performing an attack against an opponent, follow it up with a flying attack to continue the fight. Press the D-Pad after an attack to perform an automatic follow-up attack against the opponent.
"GALACTIC ADVENTURER"

Carrying his trusted Silver Pack, Rolf travels through the Galaxy looking for excitement, which is why people know him as the "Galactic Adventurer". His special attacks are assisted by an internal Booster pack, enhancing his fighting abilities.
